**SENATE BILL****No. 143**

---

**Introduced by Senator Runner**

**(Coauthor: Senator Ashburn)**

(Coauthors: Assembly Members Maze, McCarthy, and Sharon  
Runner)

February 3, 2005

---

An act to add Section 11093.5 to the Government Code, relating to statistical districts.

LEGISLATIVE COUNSEL'S DIGEST

SB 143, as amended, Runner. Statistical districts: Antelope Valley.

Existing law requires any state agency or department that develops and maintains data and statistics on the municipal level to make a separate breakdown of the San Fernando Valley, as described, in the preparation and maintenance of any statistical analyses by city, and authorizes state agencies to require the City of Los Angeles to provide all necessary data.

This bill would similarly require ~~designated state agencies~~ *the Employment Development Department and the Department of Finance* to make a separate breakdown on the Antelope Valley, as described, in the preparation and maintenance of any statistical analyses and data by county and would ~~require~~ *encourage* the Counties of Kern and Los Angeles to *voluntarily* provide ~~all necessary data upon the request of~~ *to* those state agencies.

Vote: majority. Appropriation: no. Fiscal committee: yes.  
State-mandated local program: no.

*The people of the State of California do enact as follows:*

1 SECTION 1. Section 11093.5 is added to the Government  
2 Code, to read:

3 11093.5. (a) (1) ~~The Business, Transportation and Housing~~  
4 ~~Agency, State Board of Equalization, Franchise Tax Board,~~  
5 ~~Employment Development Department, Department of Industrial~~  
6 ~~Relations, and Department of Finance~~ shall, in the preparation  
7 and maintenance of any statistical analyses and data, by county,  
8 either by population, fiscal, or other bases, make a separate  
9 breakdown of the Antelope Valley, ~~and shall require the Counties~~  
10 ~~of Kern and Los Angeles to provide all necessary data.~~ *using the*  
11 *boundaries described in subdivision (b). The statistical analyses*  
12 *and data shall include, but is not limited to, the following: wages,*  
13 *consumer price index, prevailing wage, unemployment,*  
14 *occupational wages, and median income.*

15 (2) *The Department of Finance shall, in the preparation and*  
16 *maintenance of any statistical analyses and data, by county,*  
17 *either by population, fiscal, or other bases, make a separate*  
18 *breakdown of the Antelope Valley using the boundaries*  
19 *described in subdivision (b). The department shall provide*  
20 *statistical analyses and data from any additional information it*  
21 *receives from the cities and counties that are affected by this*  
22 *section and the information it receives through the census.*

23 (2)

24 (3) If the use of a tax area code is required in order to comply  
25 with ~~paragraph (1), paragraphs (1) and (2),~~ an alternate method  
26 shall be used to determine the separate breakdown of the  
27 Antelope Valley. An alternate method shall include the sum of  
28 the taxable sales attributable to all of the incorporated cities in  
29 the Antelope Valley and the taxable sales attributable to the  
30 unincorporated areas of the Counties of Kern and Los Angeles  
31 that are part of the Antelope Valley. ~~The State Board of~~  
32 ~~Equalization shall require the Counties of Kern and Los Angeles~~  
33 ~~to provide an estimate of the taxable sales data of the~~  
34 ~~unincorporated areas of those counties that are part of the~~  
35 ~~Antelope Valley.~~

(b) For purposes of this section, the Antelope Valley is ~~that area~~ *the census tracts or ZIP Codes that are closely* bounded by the base of the Tehachapi Mountains moving southwesterly to Interstate Highway 5, down the base of the San Gabriel Mountains moving southeasterly to the San Bernardino County line, follow the San Bernardino County line north, to the northern line of California City, then west to the base of the Tehachapi Mountains.

(c) *The Legislature encourages the Counties of Kern and Los Angeles to voluntarily provide data for the purposes of this section.*
